

Dear Alumni,

I am a current student in the Fundamental class in Manhattan. This semester the current students have not had a chance to interact with the alumni and find out how the class has benefited the graduates. Of course we were all very interested, which is why I contacted Sean Boykevisch to instigate an alumni happy hour in Manhattan. This is just one way the Vice President of Alumni Relations can encourage interactions among alumni.

This letter is to express my intent to run for the Vice President of Alumni Relations for the up coming year. Please give me your support and I will try to have new and innovative ways for the alumni to stay in touch with each other and to foster a strong network for developing individual career paths.

Thank you,

Mary Collins
